Experience

Katec Technology Company Limited

Apr 2021 - Now

I am working as a fresher in frontend developer, using React.js Framework to build modules for the company products. Besides, I also have some tasks on a mobile application using React Native.

Project

Images and video sharing social network service

Sep 2020 - Jan 2021

A social network where everyone can be friends, share their images and videos of moments in life. Written in React.js, Node.js, Express.js, MongoDB used Material design.

Technology forum | Feb 2020 - Apr 2020

A technology forum where everyone can be a part of the community. It is a place to read the news, create discussions and posts in every field of technology with all features as a social network. Written in React.js, Node.js, Express.js used Material design.

Profile

I graduated from Can Tho University in February 2021. I enjoy web development when I was a 2nd-year student. I have found many documents and courses in web development and learning it myself. My favorite programming language is Javascript. Besides, I am also learning about React Native to approach more technology.

I am looking for a job that can help me gain more experience, improve my web development skills, teamwork, and communication skills.

Education

Sep 2016 - Feb 2021

Bechalar's Degree, Software engineering
Can Tho University

Foreign Languages

English (TOEIC 630)
